Experience

2019
Hafmar Footwears | Kaduna, Nigeria
CEO

I am the founder of the small footwear company "Hafmar Footwears". I design an developed the current running website for the company at http://hafmarfootwears.wordpress.com using wordpress. The website is developed using wordpress.

2018-2024
Usmanu Danfodiyo University | Sokoto, Nigeria
Student

I started schooling at Usmanu Danfodiyo University at 2018 where i was admitted to study Computer Science. I joined the NACOS program. I participated in a tech battle field organized by the NACOS (2023). I also helped in developing the school online clearance system which is made for final year undergraduate student where they register and apply for clearance.

2023
Hafmar Computing | Kaduna, Nigeria
Founder

Hafmar Computing is an upcoming technology company started by me after my graduation. The company's purpose is to provide services like Software development, Mobile Apps Development , Computer Services, IT Services etc.
I manage the company my self and I have less than 10 employees .
